

Talent Co

TalentCo will leverage advanced AI capabilities to match candidates with employers based on skill sets, job requirements, and cultural fit. Additionally, the platform will offer a robust library of educational resources to upskill candidates and employees, enhancing their career growth and ensuring they meet industry demands.

Our platform serves as a hub where sustainability and ESG professionals can showcase their expertise, skills, and passion for creating a more sustainable future. Whether you are an experienced sustainability leader, a dedicated ESG analyst, or a recent graduate looking to kickstart your career in this exciting field, we provide a space for you to connect with employers who share your vision and values.

At Talent Co we understand the critical role that sustainability and ESG play in shaping a better world and we are committed to empowering organizations to make a meaningful impact through their hiring decisions. Through our platform, we seek to accelerate the growth of the sustainable economy and contribute to the creation of a more just, equitable, and resilient world for all.

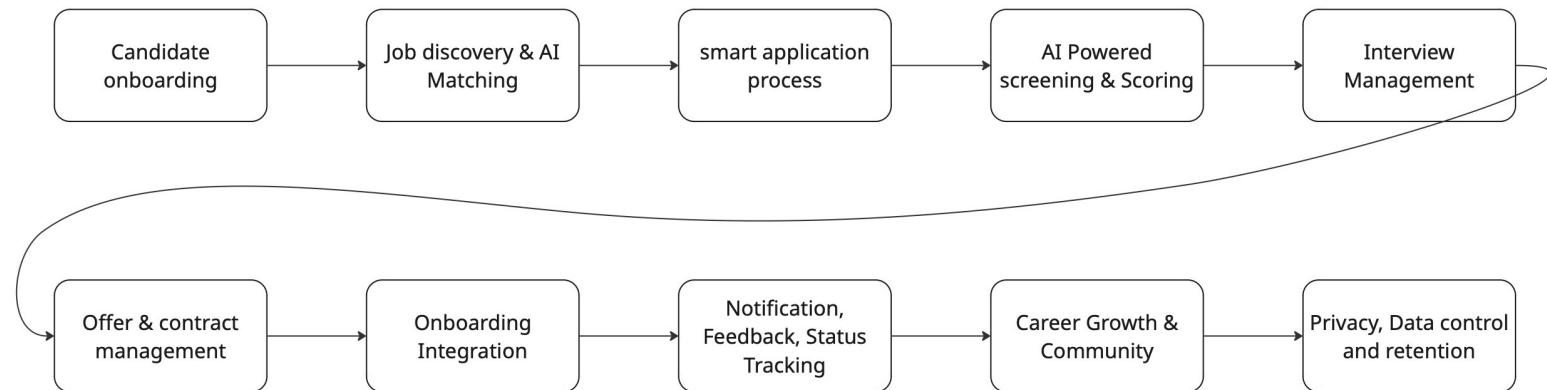

Our thinking

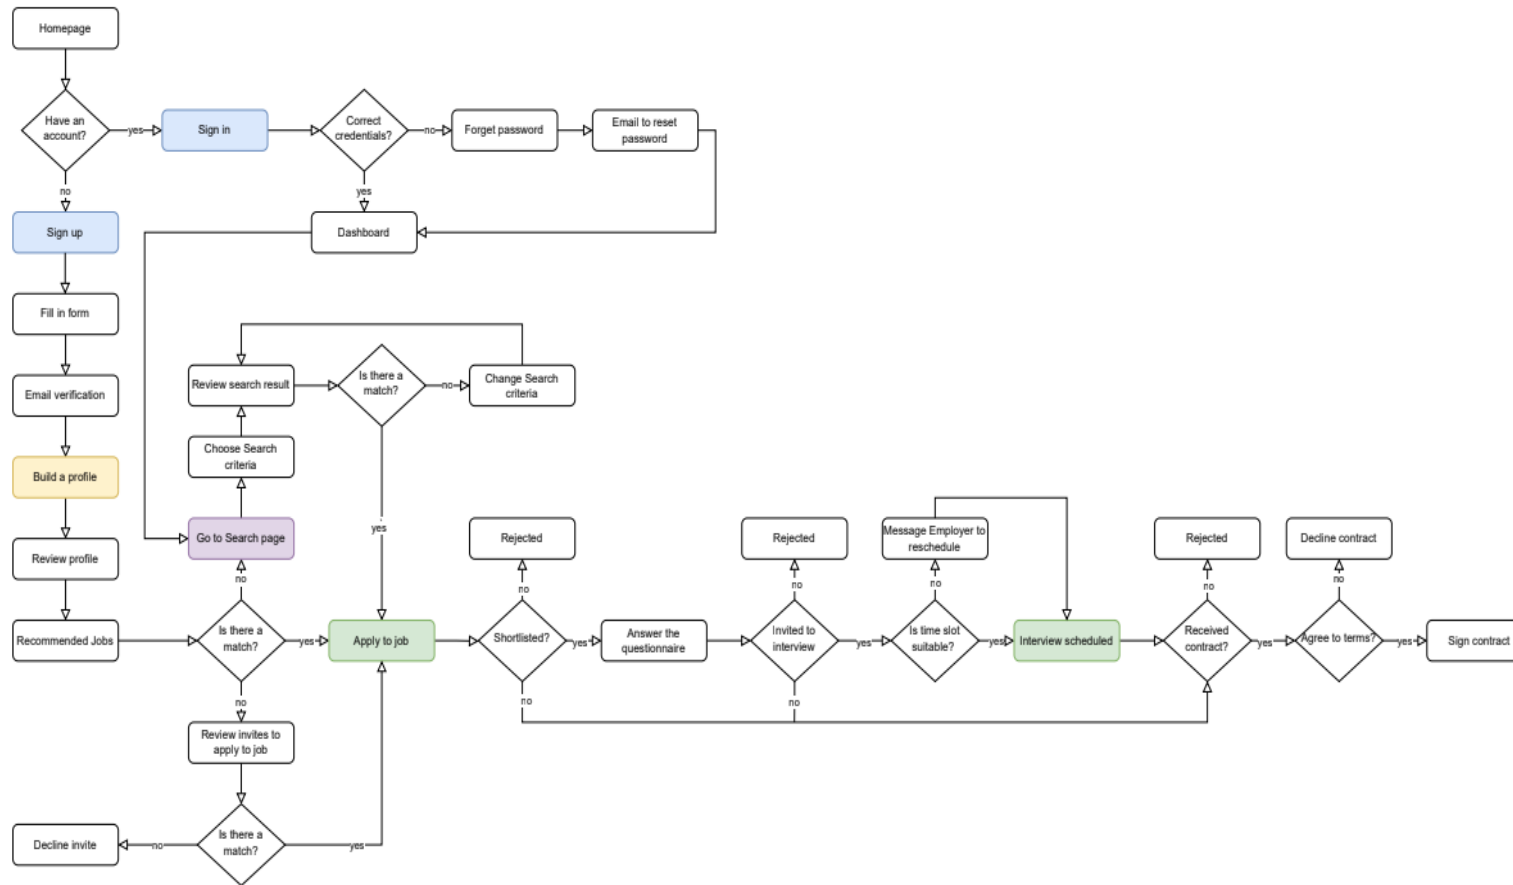

1. Smarter connections based on skills, cultural fit
2. Upskilling to help candidates transition to ESG, climate related jobs (ai agent to help candidates gain skills / training and micro credentials)
3. Followed by short term project related workflow where employers require contract , casual staff
4. Marketplace to connect the ecosystem

CANDIDATE FLOW (HIGH LEVEL)

TalentCo will leverage advanced AI capabilities to match candidates with employers based on skill sets, job requirements, cultural fit and other criteria.
